Hobbies

Long distance running

Books reading

Guitar

Job Expirience

2022-2023
6 months

U'Seek Student Marketplace

U'Seek is more than just a marketplace. It's a platform developed by a small team of students from different disciplines, united by the goal of creating a space where students can communicate, collaborate, and thrive in their entrepreneurial endeavors.

Technologies used in the development: HTML, CSS, JavaScript

https://useek.com.ua

2023-Present

Technical Support

Position of a technical support specialist at the Internet service provider MIIT.

2025
3 months

Electronic Settlement System

The main task of the system is to simplify the process of submitting documents for dormitory accommodation by applicants/students.
In the process of development, he gained skills in team organization (he used GitHub Projects to issue tasks), and improved his skills in working with the PostgreSQL database, the Spring Java framework, and the Vue.js front-end framework.

Technologies used in the development: Spring (Boot, Security, Data), Hibernate, PostgreSQL, Docker, Docker Compose, Vue.js, git-crypt

Hosted a project on the AWS platform using EC2 (Gained skills in Amazon Linux 2023)
