Summary

Software and Infrastructure Engineer bridging the gap between efficient backend code and resilient network systems. Specializing in Java/Spring development, deep network administration (Cisco, MikroTik, Juniper), virtualization (Proxmox), and CI/CD pipelines. Passionate about designing scalable microservices and managing the complex cloud/hardware environments they run on.

Experience

MIIT LLC

System & Infrastructure Administrator

Kyiv, Ukraine

Dec 2025 - Present

- Administered ISP network infrastructure for high availability, configuring multi-vendor environments (Cisco, MikroTik, Juniper).
- Served as L3 escalation point for complex incidents using deep knowledge of OSI, TCP/IP, VLANs, and secure routing.
- Managed technical onboarding, trained L1 support staff, and established IT operational guidelines.

MIIT LLC

Technical Support Engineer

Kyiv, Ukraine

Oct 2023 - Nov 2025

- Resolved L1/L2 network incidents, guiding users through advanced troubleshooting.
- Deployed physical infrastructure and managed network switches within TCP/IP environments.

Projects

SettleHub: Modern Hotel Management System

A microservice-based backend replacing legacy enterprise systems in the hotel industry. Transitioned monolithic architecture into scalable independent services.

<https://github.com/orgs/SettleHub/repositories/>

Enterprise-Grade Homelab Infrastructure

Secure, multi-node Proxmox VE infrastructure. Acts as a local data center hosting centralized logging, automated backups, and GitHub Runners for CI/CD.

Esettlement: Dormitory Monolith (Archived)

Archived monolithic Java app automating university dormitory accommodations; served as the architectural foundation for SettleHub.

<https://github.com/orgs/sc-fmct-tech/repositories/>

U'Seek Student Marketplace

Developed the responsive frontend architecture for Ukraine's first student-exclusive marketplace.

Education

Kyiv National University of Technologies and Design

Software Engineering

Bachelor

Kyiv, Ukraine • Aug 2022 - Jun 2026

Skills & Languages

Backend & Databases

Java, Spring, PostgreSQL, MariaDB, Kafka, Eureka

Networking

Cisco, MikroTik, Juniper, VyOS, TCP/IP, VLAN, VPN

Languages

Ukrainian (Native), English (Intermediate B1)

Infrastructure & Cloud

Linux, Docker, Proxmox, AWS EC2, CI/CD, Bash/Zsh

Frontend

JavaScript, TypeScript, Vue.js, React, HTML/CSS
